

Vocal Range: an Overview

F.G.J. Absil

2nd July 2004

Abstract

Vocal ranges, as specified in literature, may vary considerably. This document gives an overview of various sources; vocal range will be presented for choir and solo voices.

Overview of vocal range

Figure 1 gives an overview of vocal ranges from a number of sources. These include classical orchestration textbooks, [1, 3, 5, 6] and jazz arranging books [4, 7]. The last line (Habermann and Garcia-Duprez) were taken from [2]. *Open notes* indicate the typical range for an average skilled singer (trained amateur), *black notes* indicate the extended range for an advanced, highly trained singer (professional). Also the difference between a solo and a chorus voice is indicated.

Legend:

Female voices: *Col*: Coloratura Voice, *S*: Soprano, *M-S*: Mezzo-Soprano, *A*: Alto,

Male voices: *T*: Tenor, *Bar*: Baritone, *B*: Bass, *B-Prof*: Basso Profundo.
